Commissioner for Patents, Alexandria, VA 22313-1450 on March 17, 2004.
John Paramore

Sir:

Prior to the examination please amend the above identified application as follows:

In the Claims

Please amend Claims 1-5, 7-8, and delete Claims 6, and 9-23 as follows:

1. A system for enabling device communication in an expanded computing device comprising:
- a primary bus coupled to a first integrated circuit chip having a first register and a second register therein;
 - a secondary bus physically remote from the primary bus coupled to a second integrated circuit chip having a third register and a fourth register therein;
 - a first serial link coupled between the first register and the third register; and
 - a second serial link coupled between the second register and the fourth register; and
 - wherein the first integrated circuit is configured to enable the transfer of data to the
